EARLY ANNUAL VARIETIES FOR 2020

**More crops and additional varieties
will be released throughout the Spring -
Watch our Website for additions to this list!**

KALE

6-packs: \$4.50

Biodiversity Kale

Biodiversity kale is a collection of six of our favorite kales that come in a jumbo six pack with one each of the following varieties: Dazzling Blue Lacinato, Green Glaze, Lacinato Rainbow, Oregreen Curl, Russian White and True Siberian Kale.

Dazzling Blue Lacinato

Dazzling Blue Lacinato is a recent selection of the classic Lacinato or Dinosaur Kale. It has classic Lacinato blue-green leaves on bright purple stems plus that deep rich sweet flavor. More vigorous than any Lacinato we have grown, this variety is particularly winter and early Spring hardy. This variety was bred for organic conditions by Hank Keogh of Avoca Seed.

Green Glaze

Green Glaze is one of the oldest varieties of kale/collards grown in North America. It has a great crisp, tender flavor and is largely resistant to insect infestation in the garden and bolting in summer heat. It also has beautiful, shiny leaves and doesn't turn dull when cooked. 30-34 inches tall.

Lacinato Rainbow

A fabulous cross between Redbor and Lacinato kales with frilly green leaves overlaid with hues of red, purple, and blue-green. Very vigorous and cold-hardy.

Oregreen or Oregon Curl

An Alan Kapuler original from Peace Seeds, this variety was selected from a cross between Scotch Curled and Pentland Brig kales. Plants are 3-4 feet tall with deeply curled green leaves on stocky stems. Great for kale chips!

Russian White

Similar in appearance to Russian Red but with white venation. More tender than Russian Red, with a squatter growing habit. Tends to be very bolt-resistant. The most productive kale we know.

Shiny Diney

An OAEC Doug Gosling original, selected in our gardens! A beautiful kale with glossy, dark, almost black, strap-shaped leaves which contrast nicely with the blue-green chalky-surfaced leaves of traditional Lacinato or Dinosaur Kale. It is a smaller plant with an even heartier taste.

Spigariello

This variety is technically a leaf broccoli, but is grown like broccoli raab. Harvest individual leaves for continual harvest or whole plants for branching. Sweet broccoli/kale flavor from beautiful silvery, feathered leaves. Great fresh in salads. Popular in southern Italy.

True Siberian

Large, frilly, blue-green leaves identify this fast growing, exuberant kale. Slow to bolt in summer, it withstands hard frosts, which improve its texture and flavor. 24-30 inches tall.

COLLARDS**6-packs: \$4.50****Variegated**

Florida family heirloom since 1910. Green leaves become variegated with white when plants begin to flower. Plants may live 5 years or more. Incredibly beautiful and ornamental, but tasty and tender as well.

Yellow Cabbage Collard

The other of our all-time favorite collards, this variety is so, so tender and sweet, much like the Variegated Collard. Making its appearance in the late 1880s, Yellow Cabbage Collard seeds have been passed down in the same family in North Carolina for generations. Distinctively, the Yellow Cabbage Collard has rough-edged, non-heading edible chartreuse leaves that radiate from a common stem. It grows year-round in full sun or partial shade and can grow to be 24 inches tall and wide. It has a silky, tender texture, more akin to spinach than bitter greens.

MUSTARD**6-packs: \$4.50****Red Feather**

An OAEC original, developed by Doug Gosling, as featured in our 2005 catalogue. A sharply-toothed cross between Old Fashioned Ragged Edge and Red Giant mustards. It is fabulous raw in salads, and has a robust spicy taste. It sweetens to a full, rich flavor when sautéed or used as a potherb.

PARSLEY

3" pots: \$3.00

Gigante D'Italia

Very flavorful flat-leaf parsley which produces a very large, productive, and vigorous plant.

Moss or Triple Curled

The leaves of this parsley are so deeply cut and curled that it resembles moss. Vigorous, high-yielding, uniform, and very sweet. Introduced in the late 1800's.

POTATOES

4 inch pots: \$4.25

Bodega Red

A local legendary potato once grown widely in Northern California, it prospered around Bodega Bay to Petaluma and along Tomales Bay into Marin County. It almost completely disappeared by the 1970's but Slow Food Sonoma County led a conservation effort to save it and re-introduce it back into the farming world, successfully working to list it on Slow Food International's Ark of Taste as a variety worth preserving. The Bodega Red is a oblong pink/red potato with a rich nutty flavor and creamy texture. Yummy!

SHUNGIKU

6-packs: \$4.50

Variouly called Garland or Edible Chrysanthemum or Chop Suey herb. Shungiku leaves are a delicious, richly-flavored ingredient in salads or can be added to sautés. Bright yellow flower petals are edible too!

SWISS CHARD

6-packs: \$4.50

Chadwick's Choice

Originally from Alan Chadwick. Naturalized for over 20 years at Mariposa Ranch. Wide green leaves with thin white stems. We have grown this variety and saved seed on it in the OAEC gardens since 1982.

Perpetual Spinach

Not a spinach but a kind of chard that produces leaves which look more like spinach – flatter and more pointed – and taste like spinach too. Great as a tender sauté green and also tasty fresh in salads. Very longstanding in the garden and generally doesn't bolt in the first year.

TOMATOES

4 inch pots: \$4.25

These are the first varieties we offer early- many more will be released later.

SLICERS - BLACK

Black Krim

Superb, mahogany-colored fruit from the Crimea. One of the best - many people's favorite!

Brandywine Black

Mahogany 12- to 16-oz. fruit. Rich color and flavor. Vigorous plant with leaves that look like potato leaves.

Brazilian Beauty

An absolute OAEK favorite. Gorgeous small mahogany fruit with sublime rich flavor. Extremely productive.

Cherokee Chocolate

Rogue heirloom originating from Cherokee Purple, a popular old heirloom from Tennessee. Four-inch beefsteak-type variety with exceptionally rich flavor and wonderful chocolate mahogany color.

Japanese Black Trifele

Originally from Russia. Attractive tomato the size and shape of a Bartlett pear. Beautiful purplish-brick color. Flavor absolutely sublime, having the richness of fine chocolate. Heavy producer.

Paul Robeson

Black flesh, sublime earthy taste. Many people report that this is their favorite black tomato.

SLICERS - GREEN

Aunt Ruby's German Green

Light green with pink interior. Large 1-lb. fruit. Outrageous, slightly spicy flavor! Vigorous grower.

Green Stripe

Originally from Carlos Santana's garden, passed on to Doug Gosling in 1996. Actually a small slicer. Pale green fruit with dark green stripes. Smooth texture. Incredible melon-like flavor. One of our favorites!

SLICERS - ORANGE

Farallones Beefsteak

Unique orange beefsteak with great hearty beefsteak flavor. Collected from a compost pile here in 1983.

Faribo Goldheart

Golden globe-shaped fruit. Good flavor. A gorgeous tomato! Doug Gosling's favorite orange tomato. Grown at OAEC since 1982!

Nebraska Wedding

3- to 4-inch fruit in beautiful bright orange clusters. With sweet citrusy taste. Productive. Determinate. From the Great Plains.

Persimmon

Persimmon orange color. Sweet taste, medium-sized. Beautiful tomato!

SLICERS - PINK)

Andy's Polish Pink

Huge pointed pink fruit. FANTASTIC flavor, creamy texture., very few seeds. Our favorite variety! This was passed on to Doug Gosling in 1991 by a friend named Andy whose father brought the seeds from Poland when he emigrated here as a boy.

SLICERS – RED

Ailsa Craig

Medium-sized, good in cool areas. Potato-leafed variety. Alan Chadwick's favorite red tomato variety. Originally from Scotland.

Burbank

3- to 4-inch fruit. Stocky plants. Good old-fashioned flavor. Developed by Luther Burbank. Hardy, productive, disease-resistant. Determinate.

Indian River

Very rare variety. Produces small, round, tasty red fruit. Does well in cool marginal tomato growing areas such as along the coast. Quite productive.

Marmande

Popular old French market variety developed by Vilmorin Seed Company. Scarlet, lightly ribbed, medium to large fruit with rich, full flavor. Productive, even in cool weather.

Thessaloniki

Greek heirloom with wonderful mild flavor – will take you back to those fabulous fresh tomato salads you so adored in sunny Greece. Nicely uniform baseball-sized fruit.

SLICERS - STRIPED**Ananas Noire**

Sometimes called “Black Pineapple,” this tomato is from Belgium. Multi-colored (green, yellow, purple mix) smooth fruit weigh about 1 ½ lbs. Superb flavor – sweet and smoky with a hint of citrus. Heavy yielder.

Ruby Gold

A favorite of ours since 1984. A huge, mostly red fruit weighing up to a pound with stunning gold marbling inside. Creamy texture and sweet, fruity melon-like taste. Late season - 88 days to ripening.

Tiger

One of our all-time favorites. Grown here since 1983. A small red slicer with orange stripes. Originally from Czechoslovakia. Tart flavor. Always one of the earliest to ripen.

SLICERS - WHITE**Great White**

Ivory/yellow flesh. Large beefsteak-like. Incredible melon-like flavor. Likes heat. Absolutely one of the best to serve sliced drizzled with olive oil, salt and fresh basil leaves.

-PASTE -**Yellow Bell Paste**

Meaty, dry, very productive, a large “plum” tomato. Indeterminate. Sweet enough to be used as a salad or slicing tomato.

CHERRY TOMATOES**RED****Alan Chadwick**

Red cherry, very sweet, large size. Indeterminate. Named after the famous English gardener.

Peacevine

Very prolific bushes of small red tomatoes with occasional orange-fruited plants. High nutrition in tests and unique flavor. Developed by Dr. Alan Kapular of Seeds of Change in the 1980s.

CHERRY - WHITE**Ben's Ivory Pear**

Unique pear-shaped ivory/yellow tomato. Very pretty and flavorful as well!

Coyote

Incredible, sweet musty taste, pale ivory color. FANTASTIC beefsteak-like taste, unique for a cherry tomato. Originally from Mexico. Plants are very productive.
